|--------|--------------------------------|-----------------------------|---------|------|
| B.Tech | Computer Science & Engineering | Bapatla Engineering College | 2020-24 | 8.6  |

## EXPERIENCE

- **Front-End Developer at Vithi IT Solutions** Mar 2024 - present
  - Worked on projects including Vithi Blue, Laverne, Amaiya, Kotrike and QR Gate App, focusing on responsive UI design, performance optimization, and seamless user experience.
  - Collaborated with designers and back-end developers to integrate APIs and UI components smoothly.
- **Laverne**
  - Developed a resort booking website using Next.js and Mess.
  - Designed clean and responsive pages to improve user experience on all devices.
  - Implemented features to allow easy booking and management of resort stays.
  - Collaborated with team members to deliver a smooth and functional website.
- **Amaiya**
  - Collaborated with team members to develop a bakery booking website using Next.js and Mess.
  - Designed clean and responsive pages to improve user experience on all devices.
  - Implemented features to allow easy booking and management of bakery orders and reservations.
  - Participated in team discussions to plan new features and improve site performance.
- **Kotrike**
  - Contributed to the development of Kotrike, an HRMS tool, using Next.js and Tailwind CSS.
  - Worked with team members to build responsive and user-friendly interfaces.
  - Implemented features to track employee progress and streamline HR management tasks.
- **QR GateAPP**
  - Worked as part of a team to develop a mobile app for tracking student progress using React Native, Expo, and NativeWind.
  - Developed and maintained multiple user roles including Student, Parent, Staff, Admin, Warden, and Gateman.
  - Built responsive interfaces that provide a smooth experience for all users.
  - Coordinated with backend developers to ensure seamless data flow and real-time updates.
  - Contributed to feature planning and app performance improvements during team discussions.
  - Helped deliver an efficient and user-friendly app across different devices.
  - Built an admin dashboard using the Mercury platform to track all details and provide analytics.
